Subject: Re: that next meeting

I'll draft my letter this weekend and have it ready to send to Kathy Kumar when you give me the signal.

I will argue that it indicates that you have been made to pay with your academic career for department error (no copies of probation letters to me), professor and university disorganisation (incompletes not being processed), carelessness by whoever (Harold claimed it was Grad Division office?) issues the dismissal notice (for their failure to verify the situation). -----
